### *The property*

Eyeworth Lodge is a substantial country house offering over 8,000 sq ft of family living space and presented throughout in a most stylish and elegant manner. The accommodation is set over three expansive floors with most of the rooms boasting delightful views across the gardens and forest beyond.

Whilst there are some lovely period features such as sash windows, exposed beams to the older part of the property, working fireplaces and recessed lighting, the house now benefits from some significant eco credentials following the installation of a ground source heat pump in 2021 and a significant solar PV array in 2022 (further details are available upon request).

Upon reaching the front door beneath an attractive wooden porch, one enters a bright and welcoming entrance hall, off which are doors to the double aspect sitting room with two bay windows, marble surround fireplace and French doors to the terrace. Adjacent is the drawing room with exposed oak beams, large bay window, open fire, wooden surround and alcoves to either side. With access from the hall and the drawing room two steps lead down to the dining room that includes a corner fireplace with decorative tile surrounds. Glazed doors lead from the dining room through to the doubled glazed conservatory where one can look across the gardens and over to the forest and step out onto the sun terrace.

The kitchen is made up of painted wood wall and base units, part beech and part granite worktop, central island unit with seating for four, double stainless steel sink, fridge freezer, Aga and Miele appliances including an electric conduction hob, a large modern fan oven and an integrated steam oven. The large walk-in larder at the end of the kitchen provides further storage and space for a full size fridge, a full size fridge freezer and a chest freezer. A door from the kitchen leads to a back hall and boot room with plenty of coat and boot storage space, WC and basin.

From the family/breakfast room is the large utility and boot room with space and plumbing for washing machine and tumble dryer, storage, double butler sink and steps down to the basement. The large utility and boot room leads on to the second utility room / workshop which has further storage cupboards, wrap around worktop and butler sink.

The significant basement is over 1,000 sq ft and was installed by a previous owner, a wine importer, as a wine cellar. The basement includes a professional wine lift to raise and lower cases of wine from the terrace and integrated fan ventilation to aid long term wine storage.

Stairs from the entrance hall, and from the family/breakfast room, lead to the first floor. The principal bedroom faces south over the gardens and west over paddocks and leads on to the first dressing room with a wall of fitted wardrobes and cloakroom. Beyond is a beautifully fitted bathroom with standalone bath, double sink with cupboards, and separate double fully tiled shower cubicle. From here, a door leads to a second dressing room and further doors lead to the north roof terrace and also to the hobbies room that has wood flooring, stairs to the accessible attic area, and a further door that provides external access to an exterior staircase back down to ground level.

Bedrooms 2 and 3 have fitted wardrobes and French doors to balconies taking advantage of the southerly aspect and views over the formal garden and paddocks. Bedroom 4 is to the front of the house. These three bedrooms have access to a family bathroom, cloakroom and shower room. From the first-floor inner landing are double doors to the north roof terrace. Stairs lead up to the second floor landing with exposed beams. There are three double bedrooms all with built in storage and a separate family bathroom.

### *Gardens and grounds*

The property is approached via electric wooden gates with a gravel drive continuing to a turning circle to the front of the house and secondly to the stable yard where there is ample parking for numerous vehicles. The terrace to the south of the property leads to a formal lawn and herbaceous border and further leads to a lawn with a large productive apple tree, espalier trees and the all weather synthetic grass tennis court beyond. The enclosed paved swimming pool is heated via an air source heat pump and has a pool house complete with outdoor and indoor showers, kitchen, cloakroom and changing area.

On the north side of the house is a large walled terrace, designed to be ideal for outdoor entertaining. There are two decorative wood stores with outside lighting and a path leading to the kitchen garden. This has raised vegetable beds, soft fruit bushes and mature fruit trees. There are two glass houses with power for heating and lighting and multiple water access points. Beyond the glass houses are further fruit trees and a brick built potting shed with lighting and storage cupboards. A stream runs through the southern part of the grounds with a bridge between the two largest paddocks.

The property enjoys direct access to the New Forest National Park offering lots of opportunities for riding, walking and other recreational activities.

### *Equestrian*

The stable yard consists of five loose boxes (one with viewing platform) with covered courtyard and a large workshop / tack room with drying room and stairs to a significant loft space. In addition there is a smaller workshop and open bay garaging for five cars.

There is a very good manège with sand/silica all weather surface and this whole area can be accessed via a spur from the drive with its own turning circle. There are four paddocks and two field shelters and all paddocks are securely enclosed by a combination of post and rail/wire fencing and mature hedgerows.

**Cottages**

There are two semi-detached cottages adjacent to the main house. Latchworth Cottage with kitchen, reception room, 2 bedrooms and bathroom. Eyeworth Cottage with kitchen, sitting room, bedroom, bathroom and walk in wardrobe.

**Brief history**

The site has its origins in the Domesday book when it was a royal hunting lodge but the present house dates back to the 17th century when it became part of the Schultze Gunpowder Factory.
